Monarch's inaugural from Leeds Bradford Airport to Malaga takes flight

Friday 6th May 2016: Monarch is celebrating a first successful week of flying passengers to their new route, Malaga, from Leeds Bradford Airport.

The launch of summer flights from Leeds Bradford Airport to the popular southern Spanish city of Malaga is one of ten destinations the airline has flights to during the summer season. The route will also continue into the winter.

Monarch began flying to the route on Sunday May 1st and will operate flights to Malaga from Leeds Bradford Airport three times a week; Wednesdays, Thursdays and Sundays, with fares, including taxes, starting from £69 one way (£130 return).

Tony Hallwood, Aviation Development Director at Leeds Bradford Airport, said: "I am really pleased to see the introduction of the Malaga route this summer. This service will run through winter too, serving both holidaymakers and overseas property owners throughout the year. It's been a great first week for Monarch's Malaga programme here at Leeds Bradford and we're sure it'll be a popular choice for our passengers."

Adrian Tighe, Chief Commercial Officer at Monarch, said: "We are delighted to add Malaga to our Leeds Bradford programme for both summer and winter. Customers now have ten destinations to choose from when flying out of Leeds Bradford Airport with Monarch."

About Monarch:

Monarch is a leading UK independent airline group. The company includes a scheduled airline, in-house tour operator and an award-winning engineering division. Flying from 5 UK bases, London Gatwick, Birmingham, Manchester, Leeds-Bradford and Luton where it is headquartered; the airline offers 7million sector seats to leisure destinations. The tour operating division offers package holidays across the airlines scheduled network focussing on beach, city and ski breaks.

Operating globally, Monarch Aircraft Engineering (MAEL) supports the airline and provides aircraft maintenance services to third party customers located in east and west Europe, the Middle East, Australia and North America. MAEL is a leading MRO for new technology aircraft, including the Boeing 787 Dreamliner, for which it is one of a small group of worldwide Boeing-approved GoldCare providers.
